

**Bipin Badani**  
**Senior Vice President and Chief Information Officer,**  
**Fujitsu America**

Bipin Badani is senior vice president and chief information officer of Fujitsu America. Prior to taking on this role on April 1, 2009, Mr. Badani was senior vice president and chief information officer for Fujitsu Computer Systems Corporation.

Mr. Badani joined Fujitsu in 1992 and is responsible for engineering operations, as well as product and service development for current and future technologies strategic to Fujitsu. He provides leadership and strategic direction for the planning and implementation of the Fujitsu technology infrastructure, business process re-engineering and enterprise applications.

Mr. Badani's 20 years of information systems management experience began at the Amdahl Corporation, where he held a variety of information technology roles for the company as well as leadership positions in the areas of corporate information system architecture, eCommerce and internet software applications, enterprise business ERP applications and new product introduction engineering. Prior to joining Fujitsu, Mr. Badani was employed by Warner Music Group as vice president of software development and led the development of sales and marketing Internet applications, intranet-based applications, enterprise data warehouse, Oracle financials and PeopleSoft HRMS.

Mr. Badani holds a Bachelor of Science degree in electronics and telecommunications and a Master of Science degree in electrical engineering from West Virginia University.
