

David Berry
Senior Vice President, Operations, Fujitsu America

David Berry serves as senior vice president of operations for Fujitsu America. In his role, he is accountable for all business risk assurance, commercial management and oversight of Fujitsu America corporate governance. In addition, Mr. Berry oversees all cross-business operations, a role in which he manages internal policies, processes, and procedures to efficiently connect the company's business lines and helps to leverage the comprehensive value generated by the various parts of Fujitsu America. In this capacity, he is leading the development of a new management system that will provide visibility to the important operational metrics for our business.

Mr. Berry brings a wealth of experience to Fujitsu America, which makes him well suited to this important role within the company. He started his career in data center management roles, later joining Computer Sciences Corporation (CSC) where he spent the last 17 years focused on their outsourcing businesses. While at CSC, he held several leadership positions, including vice president and global account executive for various Fortune 500 clients, culminating in his role as vice president of Operations for the company's outsourcing business and vice president of CSC's financial services sector.

Prior to his employment with CSC, Mr. Berry worked for several years for British Home Stores in a variety of positions, including Data Center Manager, Head of Computer Services, Operations Manager, and Network Manager.

He holds a degree in electrical engineering and studied Management and Business Administration at Templeton College, a constituent college of the University of Oxford, England.

Mr. Berry is married with two children, and he resides in Great Falls, VA. He enjoys golf, tennis, squash, and wine collecting.
