

FACT SHEET

SAP BUSINESSOBJECTS INTEGRATION ASSESSMENT

OVERVIEW

A BusinessObjects Integration Assessment from the Fujitsu SAP business intelligence (BI) experts helps clients establish a well-defined roadmap for integrating BusinessObjects tools with their existing SAP ERP Central Component (ECC) or BW system. Our experts are dedicated professionals with a proven track record in executing SAP BW and BusinessObjects projects. We specialize in SAP Business Intelligence (BI), BusinessObjects and Enterprise Performance Management (EPM) implementations, upgrades and assessments

HOW CAN MY ORGANIZATION INTEGRATE BUSINESSOBJECTS WITH OUR SAP ENVIRONMENT?

Across the marketplace, there is a heavy consolidation of BI tools from vendors, including SAP® and BusinessObjects, raising questions such as:

- How will SAP's acquisition of BusinessObjects affect our reporting strategy in the future?
- What are the benefits of leveraging BusinessObjects tools rather than SAP Business Explorer (BEx)?
- When and how should I migrate from BEx to BusinessObjects? Which tools?
- How specifically can I integrate BusinessObjects with SAP to meet the particular needs of my business?

The Fujitsu BusinessObjects Integration Assessment service can help you answer these questions and more.

BUSINESSOBJECTS CLIENT BENEFITS

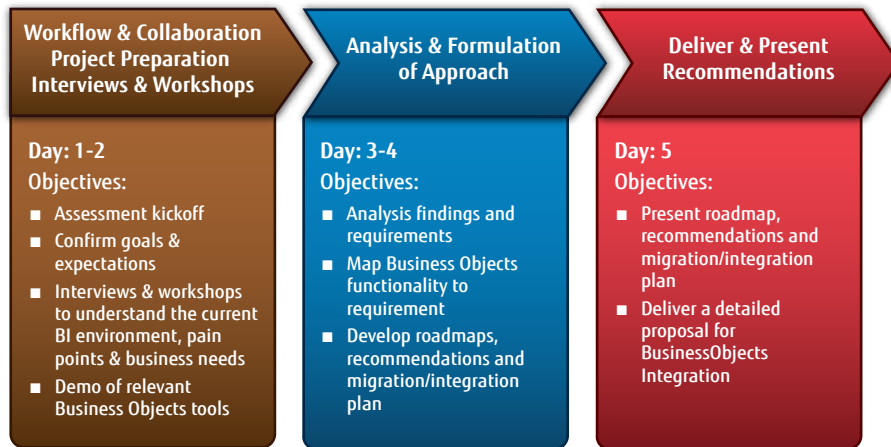

A BusinessObjects Integration Assessment from Fujitsu delivers to the client:

- A better understanding of the benefits to be derived from this new functionality
- A clear BusinessObjects migration/integration roadmap, including a recommended tool selection based on your specific needs and environment
- A high-level SAP BW and BusinessObjects integration design
- Exposure to potential risks and ways to minimize
- A detailed proposal for executing the recommended BusinessObjects roadmap at reduced costs

WHAT IS INVOLVED IN A BUSINESSOBJECTS INTEGRATION ASSESSMENT?

Every organization is unique. You may have a mature SAP landscape with established ERP and business warehouse (BW) systems; you need to consolidate multiple BI tools and legacy ERP systems. Whatever the scenario, Fujitsu can tailor the assessment to analyze your current environment and recommend a BusinessObjects integration approach that is based on your particular needs. The following provides a sample assessment timeline:
