SAP NETWEAVER

BW 7.0 UPGRADE ASSESSMENT

MINIMIZE RISKS AND REDUCE COSTS

BW 7.0 UPGRADE CLIENT BENEFITS

The BW upgrade assessment service delivers the following to you:

- A better understanding of benefits to be derived from leveraging the new functionality in 7.0
- A knowledge of potential associated risks and ways to minimize
- A clear BW upgrade roadmap
- A well-defined “project approach” for executing the upgrade at reduced costs

The Fujitsu SAP® Business Intelligence (BI) upgrade assessment service minimizes risk and reduces the costs associated with upgrading from SAP Business Information Warehouse (BW 3.X) to SAP NetWeaver® BW 7.0. Our SAP Business Intelligence Practice has a proven track record in the design, development, deployment and maintenance of enterprise BI solutions. As the world’s fourth largest IT company and one of only three SAP partners with global partnerships in Technology, Services, Software and Hosting, Fujitsu has the credentials and capability to deliver world class BI solutions. Our end to end SAP BusinessObjects offerings allow organizations to manage and optimize their corporate performance by making effective business decisions.

SHOULD MY ORGANIZATION UPGRADE TO BW 7.0?

Before undertaking a SAP BW upgrade initiative, you should ask yourself the following questions:

- What are the primary drivers for the upgrade?
- Is the upgrade going to impact the existing IT landscape?

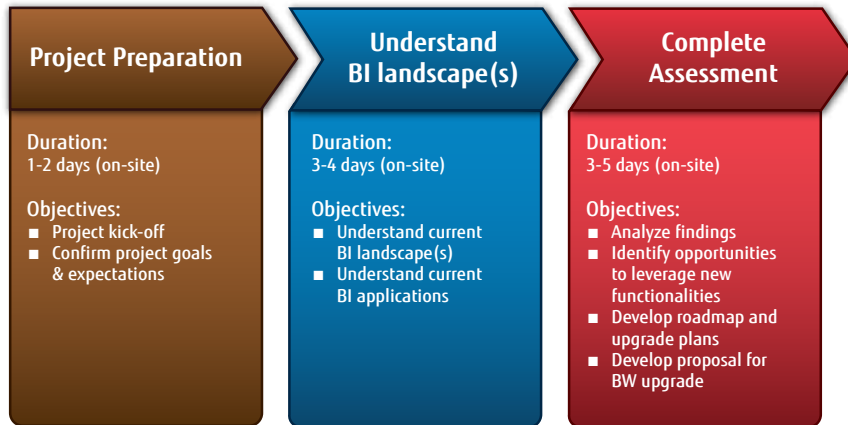

- Is the upgrade going to impact current BI initiatives?
- Is there a plan for the upgrade?
- Should I continue to use the SAP Business Explorer (BEx) front-end or upgrade to BusinessObjects front-end tools?
- Should I leverage NetWeaver BW Accelerator to improve query performance?

The Fujitsu BW upgrade assessment service can help you answer these questions.

WHAT IS INVOLVED IN THE UPGRADE ASSESSMENT?

The upgrade assessment leverages our consultants’ extensive knowledge of BW upgrade scenarios, including purely technical upgrades and technical upgrades that include the implementation of new BW 7.0 functionality. The assessment is designed to provide quick recommendations for a successful upgrade.
