LifeBook® A1130 Notebook

The comfort and ease of a traditional notebook combined with the versatility of a tablet

The A1130 is designed to deliver excellent performance and best-in-class reliability at a very affordable price.

OVERVIEW

Designed, engineered, and manufactured in Japan (Industry leader in performance and reliability)

High speed and energy efficient Intel® Core™ 2 Duo Processor

Standard spill resistant keyboard offers protection against damage caused by accidental spills.

Embedded dust filter allows periodic cleaning to keep dust and lint from blocking the vents, prolonging operational life

Fast and long range 802.11BGN wireless

Dual Layer DVD-RW for playing DVDs or 8.5 GB of storage for your movies or data

ExpressCard® slot for durable expansion flexibility

SD card slot and USB ports to easily transfer pictures and files

Removable color lid lets you make a personal statement

BENEFITS

Easy to Own

There are two ways of approaching your notebook investment. One is to purchase a low cost unit, but the savings are generally eaten up by the maintenance costs and the hassle of dealing with a poorly constructed substandard notebook. On the other hand, high-quality units may cost a little more, but the maintenance costs are lower because the reliability is significantly higher. What if you could purchase a high-quality notebook at a reasonable price? The best of both worlds just became a reality with the affordable LifeBook® A1130 notebook.

The old adage, "you get what you pay for" certainly applies in the highly competitive world of notebook computers. Now the upfront costs of top quality notebooks just became less. Designed, engineered, and manufactured in Japan (leader in quality and reliability) the Fujitsu A1130 LifeBook notebook provides you an easy way to cut costs without cutting performance or reliability.

Performance

With its high-speed Intel® Core™ 2 Duo Processor, the Fujitsu A1130 LifeBook notebook provides all the computing power you will ever need, even for the most demanding applications.

The Fujitsu A1130 LifeBook comes standard with a Dual-Layer, Multi-format DVD writer. The Dual-layer DVD-R or RW technology lets you record up to 8.5 GB of data on a single disc. This nearly doubles the standard DVD capacity of 4.7 GB. In other words, a Dual-layer DVD-R/RW disc will hold up to 4 hours of DVD quality video or 16 hours of VHS quality video. Dual-layer discs can also be read on DVD players that were originally designed for single-layer discs. Of course you can listen to your CDs and write to CD-Rs as well.

Personalize your notebook

A variety of Color Lids are available for your A1130 LifeBook notebook. They can protect your computer from scratches while giving your notebook a personalized look. A unique cover will also make your notebook less of a target for theft. Who would want to take a personal computer that would be so easy to spot?

Flexible Connectivity

With both 56K modem and Ethernet LAN built-in, you can easily connect to your office network and the Internet at home or at work. For wireless connectivity, the built-in Atheros XSPAN® BGN (802.11BGN) wireless offers you a seamless and flexible way to stay in touch using transfer rates as high as 108 Mbps. The webcam adds a fun (and very useful) dimension to staying in touch with family and friends.

Stable and Reliable

The LifeBook A1130 delivers all the key features that have contributed to Fujitsu LifeBook notebooks being named some of the most reliable in the industry. The new LifeBook A1130 notebook also features a strong exterior, highly durable hinges, and a spill-resistant keyboard. It also comes with an easily accessible dust filter. This allows maximum airflow to keep your notebook running as cool as it looks.

In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design, rigorous testing, and manufacturing capabilities. Fujitsu provides extremely high quality mobile computers with one of the lowest failure rates in the industry.

SOFTWARE

Operating Systems	Genuine Windows Vista® Home Premium, (64bit) with Microsoft® Works 9.0 and Microsoft® Office 2007 60-Day Trial (Home & Student) (Service Pack 1)
Software	Adobe Acrobat Reader®, ArcSoft Webcam Companion, Norton Internet Security™[1] Roxio Easy Media Creator, CyberLink MakeDisc, CyberLink PowerDirectorDE, CyberLink PowerDVD, LifeBook Application Panel, Microsoft Works 9.0 with Microsoft Office, Home and Student Trial Edition 2007

Key Specifications *Listed specifications are for the current model only and NOT for earlier models or revisions to this product.*

Processor	Intel® Core™ 2 Duo Processor T6500 (2GHz, 2.10 MB L2 cache, 800 MHz FSB)
Chipset	Intel® GM45 Express Chipset
Memory	4 GB Max (2 GB x 2): DDR2 800 SDRAM dual-channel memory
Webcam	One 1.3 megapixel with digital microphone

Display

LCD	15.6" Active Matrix Crystal View WXGA		

Video Controller	Intel® Graphics Media Accelerator 4500MHD video graphics, with the following amounts of shared video memory using Dynamic Video Memory Technology (DVMT), as determined by the amount of system memory:	System Memory	Max. Graphics Memory	
			32 -bit	64-bit
		1 GB	271 MB	271 MB
		2 GB	783 MB	783 MB
		3 GB	1,295 MB	1,295 MB
		4 GB	1,295 MB	1,759 MB

Resolution	Internal Display: Max. 1366 x 768, 16M colors External Only: 1600 x 1200, 16M colors Simultaneous: Max. 1280 x 768, 16M Colors

Hard Drive[2]	500 GB Serial ATA 5400 rpm hard drive
Optical Drive	Dual-Layer Multi-Format DVD Writer: 24x CD-ROM, 24x CD-R, 10x CD-RW, 8x DVD-ROM, 5x DVD-RAM, 8x DVD-R, 4x DVD-R (DL), 6x DVD-RW, 8x DVD-R, 4x DVD-R (DL), 8x DVD-RW
Audio	Realtek® codec ALC269 with 2-channel High Definition (HD) audio.
Communication	Multinational[3] 56K[4] V.92 modem, Ethernet
Wireless Communication	Atheros XSPAN® BGN (802.11BGN) wireless
User Interfaces	86-key full-size, Spill-resistant keyboard with 19 mm key pitch and 2.7 mm key stroke, Integrated gesture enabled touchpad pointing device
Ports	One 15-pin D-SUB connector for VGA external monitor Three USB 2.0 (Universal Serial Bus) connectors for input/output devices One DC In connector One modular modem (RJ-11) connector One LAN (RJ-45) connector One stereo headphone/line-out jack One stereo microphone/line-in jack
Card Slots	ExpressCard® slot for one ExpressCard® SD Card slot for one SD Card
Battery[5]	Lithium ion battery, rechargeable, 6-cell, 10.8V, 4000 mAh, 41.0 Wh; up to 5 hours
AC Adapter	Auto-sensing AC100-240V, Output: 19V, 4.22A, 80W
Dimensions/Weight	14.56"(w) x 10.43"(d) x 1.65"/1.85"(h) approx. weight 6.28 lbs. with battery and optical drive.
Operating Temperature	41°F to 95°F / 5°C to 35°C (ambient temperature); 20% to 85% relative humidity, non-condensing
Non-Operating Temperature	5°F to 140°F / -15°C to 60°C, 8% to 85% relative humidity; non-condensing

Compliance and Service Information

Compliance	FCC Part 15B Class B and FCC Part 15C; FCC Part 15E; IC ICES-003 Class B and RSS-210 UL-cUL Listed FCC Part 68; IC CS-03 CE Marking (Not supported when configured with the WLAN module) ExpressCard® Compliance ID EC100297 CB Generic Report
Warranty[6]	One- or three-year International Limited Warranty on select corporate configurations; 24/7 technical support; Fujitsu extended service plans available.

1) Preinstalled with a free 90-day trial version of Symantec Norton Internet Security 2008. The 90-day trial version is activated upon user's acceptance of software license agreement. After 90 days, the user must purchase a subscription from Symantec to download latest virus definitions.

2) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting.

3) The internal modems on all Fujitsu notebooks from Fujitsu Computer Systems Corporation are only qualified for use with telephone systems in selected countries, including the United States and Canada. For a list of certified countries, please check http://solutions.us. fujitsu.com/modems.

4) Actual speeds over U.S. telephone lines vary, and are less than 56 Kbps due to the current FCC regulations and line conditions.

5) Battery life estimates reflect the results of BAPCo MobileMark2007 Productivity Workloads performed upon systems with battery life setting enabled. Actual battery life will vary based on screen brightness, applications used, features selected, power management settings, battery conditioning, and other customer preferences. LAN, wireless LAN or hard drive usage may also have a significant impact on battery life.

6) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
