BENEFITS

Power

Notebooks powered by the Intel® Atom™ processor are the ideal companion to your everyday business PC. When on the go, you can now take all of your computing functions with you in a light-weight cost effective device.

Style

The Fujitsu MH380 mini-notebook is lightweight, and durable; designed for maximum mobility. It is the perfect size; with its user-friendly size keyboard, ample display, yet is easy to transport.

Connect

Easily connects to Wi-Fi spots in the airports, cafes, or college campuses. The Atheros® Wireless LAN (802.11 b/g/n) helps assure a solid connection.

Integrated Bluetooth allows wireless connectivity to other Bluetooth-enabled devices – transfer photos for editing or printing, listen to music with a wireless headset, transfer movies, or files from your main PC, and more.

The built-in digital microphone and 1.3 mega pixel webcam puts the fun into functionality in staying in touch with family, and friends.

Practical

With up to 7 hours and 10 minutes of battery life, the Fujitsu MH380 is great for students, and mobile professionals; it makes an excellent companion device to supplement your main PC.

The Mobile Intel® NM10 Express Chipset provides power-efficient graphics and rich I/O capabilities.

250 GB hard drive provides a surprising amount of storage for such a light-weight device.

The Intel® Atom™ Processor was specifically designed for social networking, voice over IP, e-mail, messaging, browsing, and numerous other Internet activities as well as basic applications.

Don't lug around your big expensive notebook and risk losing all your critical data to theft or damage. Use the Fujitsu MH380 Mini-Notebook for practically all of your mobile computing needs.

1) Preinstalled with a free 60-day trial version of Symantec Norton Internet Security 2009. The 60-day trial version is activated upon user's acceptance of software license agreement. After 60 days, the user must purchase a subscription from Symantec to download latest virus definitions.

2) One gigabyte (GB) = one billion bytes; accessible capacity will be less and actual capacity depends on the operating environment and formatting. Approximately 16.2GB of the hard drive is reserved for system recovery software.

3) Battery life tested using MobileMark 2007. Battery life will vary depending on the product configuration, product model, application loaded on the product, power management settings on the product, Operating System, and the product features used by the customer. As with all batteries, the maximum capacity of the installed batteries will decrease with time, usage, and how often the batteries are charged by the user.

4) Service and warranty turnaround time may vary by country and product. International warranty valid only for products purchased in North, Central, and South America.
